Understood. Again, my apologies for the confusion. Chris is in the EPA/R8/EOC today and I am working from home. We remain busy assisting EPA's response to the Durango Event. We may receive a request from EPA to review their screening levels that will be used to declare an "all Clear" on the river.. We have a conference call this afternoon with EPA Toxicologists to discuss the Recreational RSLs.

Oh, good! I thought it seemed wrong but momentarily panicked that I had missed something and you were waiting on me!

Yes. The HC has been distributed. I have been working off my cell phone this morning, but logged on to my laptop just now. I suspect this message was in my outbox and did not transmit until now. My apologies to everyone for the confusion.

Larry, Will you make the final edits per Jimmy and Pat's review ? Please let me know if we can provide assistance from the region. Staff are on stand-by in the region to transmit the final HC via email to the SJBHD.

Thanks,

Dan

See Pat's comments below. My power is still out so I can't see them on my phone.
